| Motor Power (kW / hp): | 4.1 / 5.5 |
| Voltage (V): | 415 |
| Nett Weight (kg): | 121 |

Description

This is our smallest industrial 2 stage model, which has found wide acceptance in the automotive industry. Because of the electric motor size (4kw) it can be used with a direct-on-line starter (already fitted to all Air Command industrial machines) so that the extra cost of fitting a star-delta starter is not incurred.

As it is a 2 stage compressor, it can be used for high pressures (150psi) in applications such as truck tyre inflation. It is also a very convenient size for small joinery and automotive workshops where a small tool and spray gun are used simultaneously.

Features

- 5.5hp motor, 3 phase
- Twin cylinder cast alloy pump
- 2-stage, 150psi
- 23cfm displacement
- 650 litres/min.
- 200L receiver
- DOL starter
- 2 year industrial warranty
- Made in Italy
