Description

Alcock drill bits are manufactured from M35 grade HSS including 5% cobalt, this high-grade material offers superior drilling performance and durability. Each drill bit features precision-ground flutes and a 135° cutting point angle, which is ideal for drilling in tougher materials while enhancing longevity and performance. Additionally, the drill bits are engineered with a split-point design, minimizing material resistance at the tip. The morse taper shank ensures positive driving for heavy duty drilling & is supplied with a tang for easy ejection making it an ideal choice for any workshop.
