Description

62356 Remounting Jaws Mini - Up to 200mm Bowl

Remounting jaws are incredibly popular due to their flexibility. They work in both contraction and expansion modes and can be fitted behind other jaw sets to create bespoke set-ups to make turning more efficient. The soft stoppers are designed to hold without causing damage, making them ideal for remounting finished or partly finished objects for further work.

Features

- Expansion: 95 - 215mm
- Contraction Spigot: 59 - 170mm
- Contraction Square: 53 - 154mm
