Pack Quantity (QTY):	12

RECORD POWER

Description

Record Power scroll saw blades are a premium quality range of blades made in Germany. They have been specifically chosen to offer cutting solutions to the vast array of possibilities a scroll saw offers and include both plain and pin end types. Depending on blade thickness, width, tooth patterns and numbers, these blades will cut a large number of materials, including hardwood, softwood, MDF, plywood, plastic, non ferrous metals and horn.

Features

- SSB-PINR3020 Pack of 12 Regular Tooth Pin End HSS 20 TPI Scroll Saw Blades
- These pin end blades are ideal for use in machines that only accept pin end blades, but can also be used in machines that feature universal jaws. Their width makes them ideal for straighter cuts and for more arduous cuts, such as deep hard woods. Perfect for small joints and box making.
- 3mm wide, 0.5mm thick, 20 TPI
