### Face Plate - CWA76

Ø152mm (6")  
Suits CL3 Lathe

ORDER CODE:	R8589
MODEL:	CWA76
Type:	Faceplate
No. of Piece:	~
Size:	Ø152mm (6")
Internal Thread:	M33 x 3.5mm
External Thread:	~
Suits:	CL3 Lathe

RECORD POWER

#### Description

Record Power CWA76 faceplates are the ideal tool for mounting larger or heavier work, for turning across the grain. This steel faceplate is precision machined on external faces to a high tolerance and CNC turned for exceptional accuracy and balance. It features concentric circular grooves to aid the centralising of smaller workpieces. A rough guide to a faceplate's capacity is that pieces can be turned up to three times the diameter of the faceplate they are mounted on.

#### Features

- Steel Faceplate
- Ø152mm (6") Diameter Face Plate
- M33 x 3.5mm Thread
