METALMASTER

Description

Curved dollies are used to form flanges and edges by hammering the metal with a hammer or slapper over the rounded part of the dolly. These dollies are smoothly finished to prevent damaging the material you are forming.

They're the same specialty curved T-dollies auto body shops and fabricators use to form and shape sheetmetal flanges and edges.

Features

- Set of 3
- Curved Dolly Section Size:
 - Ø13.0 x 145mm (45 x 6 x 152mm Handle)
